70 boats limit? Hmm, this can work in two ways - to increase or to reduce a number of participants depending on a theoretical limit and sailors' psychology. I guess the initial thought was to get as many of them as possible by making people believe if they don't register they'll miss out. Don't think so 😊

In one thread or another the Organisers have stated that this is just a standard phrase in their NORs, they wouldnt actually draw the line there.

Your comment disproves the concept that NORs are the best place to keep a secret...

Normally this is due to a limit in marina berthing for yachts and keelboats.

I expect this is the case at Attersee...

Who said Attersee would not be a windy venue !?!

Since I joined the facebook group for the Musto Europeans I've been getting reports of force 2-4 on a daily basis, yesterday it was force 5 !

Please note that if you would like to arrive at Attersee early, please inform the club (sekretariat@uycas.at) of your intended arrival in advance and then drop into the club to get the information where you should park the boat.

Travel to Attersee

If it helps anyone... I fly in to Munich at 9pm on Friday 30th August and return to Munich Sat 8th or Sun9th (undecided as yet).

I have a rental car booked.

Send me a mail if you would like a ride to/from Attersee.

Any one got any spare space for me and a boat?

I've finally managed to get the time of work from the 31st August to the 8th September.

I think I've found a lift for my boat, has anyone got any space for me?

I'm based at Draycott but will happily meet up somewhere to go on to Attersea.

Thanks

Stuart

Pretty sure Nigel Walbank can take the boat, although he's in Lymington. Otherwise, I don't know what Tom Conway has planned...

Here are some important infos for you, when you`ll come to UYCA's:

- for camping on UYCA's-grounds, questions where to put your trailer, etc. please, use "sekretariat@uycas.at" in advance till Wednesday noon.
- from Wednesday, Aug. 28th/1400 on, please, use "regatta@uycas.at" - this means that the race office with an extra assistant is open for you. You can also use this address this weekend untill Sunday, Aug. 25th/1500!
- for coming by car the most southern gate will be open all time from Thursday, 29th, morning. If you come earlier, please, let us know the time of your arrival in advance by mail.
- having a look on the Homepage you`ll find the car parking area. We have a barrier there that opens by code. For the Mustos this code is 8348!

Guys, we are heading out to Attersee for the 2013 D One Gold Cup approximately a week after you guys.

Any recommendations or tips on accommodation? Ideally cheap-ish and within walking distance.

Thanks,

Charlie Chandler

Charlie

Your best bet for a budget is probably the clubs accommodation block. It's just across the road...

Afternoon all, I am coming out to the Europeans to help support the fleet on behalf of Ovington Boats.

Due to commitments in the UK i will be flying in on Monday morning. Just wondering if anyone is heading to the airport on Monday the 2nd and I could grab a lift back to the sailing club?

Looking forward to seeing you all.

Duncan

Just back home and would like to express my thanks to everyone who made the Europeans in Austria such an excellent event.

The club house and facilities were fantastic, the staff incredibly helpful and tolerant of our (ie. team GBR's) dodgy pigeon German and the race team spot on...

However, one person stood out beyond all others and that was the Race Officer Gert Schmidleitner. In addition to providing first class racing on the water Gert managed to comander a rib during racing and take some superb photos which were shared with the fleet during Thursday nights slideshow (probably called Tania for some tips in the preceeding weeks 😊), bring the fleet together with an entertaining briefings each and every morning and also found the time to act as fleet mediator at a time when one was really needed.

So, once again thank you to everyone at SYCAS and thank you Gert...any chance that the powers that be could pull a few strings and 'acquire' him for future events if he was willing ??
